Job Title: **Prod. Compliance - Sr. Associate**

Introduction

Amazon is an E-commerce and Cloud Computing company with headquarters in Seattle, Washington. Since 1995, Amazon has focused on being "the world's most customer centric company." Our customers are worldwide, and include not just consumers, but also our sellers and vendors (selling partners). World-class retail brands and individual sellers increase their sales and reach new customers by leveraging the power of the Amazon e-commerce platform. To meet our selling partners' needs, our smart, diverse, customer-obsessed employees are constantly innovating and building on new ideas.

The Product Assurance, Risk & Security (PARS) organization exists to keep our customers and partners safe, protect associates, and ensure legal and regulatory compliance. Compliance Operations (C-Ops) is the operational arm of the organization. The team partners with worldwide program teams to classify products and ensure Amazon's product listings follow regulatory and legal compliance guidelines. C-Ops supports regulatory compliance requirements for Amazon's worldwide programs such as Restricted Products, Dangerous Goods, Global Trade Services, Product Assurance, Food Safety and Product Safety. C-Ops has offices across India, China, Poland, Romania, Netherlands, Jordan, and Costa Rica and supports compliance related needs for worldwide Amazon marketplaces.
